Overview

The Bush Play Adventure

Program delivered by the BEEC teachers with guidance from the visiting teacher.
Full day (4.75 Hours)
Years K – Prep

Big Idea: Exploring self, others and place.

Overview:

The Bush Play Adventure has been specifically designed for children to experience and explore the natural environment, a forest, and to develop awareness and an appreciation of the natural world in which they live. The program takes place in the Bunyaville Conservation Park.

This is a play based program and includes storytelling, puppetry and immersion in the forest. Koala Blue is separated from Mother Chloe by dogs not being walked on a lead. A magical day unfolds with the children being invited to help solve the problem and find Koala Blue. This program models: environmentally sustainable play, strategies and alternative play experiences for visiting teachers, parents and other adults.
